

**OR...CHOOSE THE PUBLIC OWNERSHIP ROUTE...  
ACT NOW AND CONTACT YOUR MP (see over)**

Dear .....MP

As a constituent, I wish to complain about the newly announced increase to rail fares for 2015.

We have the highest fares in Europe, yet services are overcrowded, frequently run late and are under-staffed.

The rail network is vital to our economy and environment, but there has been little investment from private train companies. Most investment comes from taxpayers, and in 2012/13 this was £4bn. Meanwhile, private train companies paid out over £200m in dividends to shareholders.

Given that demand is set to increase over the coming decades, bold steps are needed now. Please support our call for an affordable railway under public ownership that puts people before profit.
